Dear Mr. Jayesh Bhai,

Following our discussion yesterday, we have identified the following materials in our Food Store that are rusted and require replacement. Kindly prioritize this request for a prompt replacement.

SAP Code	Material Description	Replacement Qty	Batch No.
J1000600	Mango PulpTin 860gm	37	As mentioned on Tin
J1002273	Pineapple Slice in Tin-840gms	54	As mentioned on Tin

[@Rahul Tambat @Ashish Tambde](#) – Please instruct your team not to accept any tins that are rusted or dented in the future.

Thank you for your attention to this matter.

Regards

Mohan Nawade
